col. Winship Explodes Report of Rental for Trenches.

PARIS, Sept. 8.—Col. Blanton Winship, indgo Advocate General and also head to the requisitions and claims department of the American Expeditionary Paris, Sept. 8.—Col. Blanton Winship, Judge Advocate General and also head of the requisitions and claims department of the American Expeditionary Purces, finally disposed of the old story that the French people claimed rentals for the ground occupied by the trenches at the front, in his testimony to-day before the committee of the American Congress which is investigating war expenditures. He testified that no such claims had ever been made against the American Expeditionary Forces and that the only claims of this nature were for the use of ground in the training area, which was cut up and damaged in order to familiarize the men with conditions at the front.

His department, Col. Winship said, has thus far disposed of 40,000 claims, which have been settled on about the same basis as claims against the French Government. These claims include about \$7,200,000 for the billetting of soldiers and animals. Damages also have been patid, he asserted, in about 150 cases in validh French people were killed by American Expeditionary Force motor motor cars.

In nearly 7,000 cases, Col. Winship testified, officers or men were obliged to share in the payment of claims for damages for which they personally had been responsible. No claims were paid in connection with criminal acts of soldiers, except in one instance in which a man on sentry duty unjustifiably shot and tilled a Frenchman.

Col. Winship declared that his acts of soldiers accept in one instance in which a man on sentry duty unjustifiably shot and tilled a Frenchman.
